To: Indo-US Science and Technology Forum <energy.fellowship@indousstf.org>

Dear Sir/Maám,

The **Department of Science and Technology, Govt. of India** through its **Solar Energy Research Initiative**, and the **Indo-U.S. Science and Technology Forum (IUSSTF)** have partnered to support the **Bhaskara Advanced Solar Energy (BASE) Fellowship Program** - a dynamic and transformative program developed to foster contacts between students and scientists from India and the United States.

The program will provide an opportunity to the best and brightest Indian students and scientists to gain exposure and access to world-class research facilities in leading U.S. institutions to promote research and capacity building in the frontline area of Solar Energy. It will pave the way for the next generation of scientists and technologists from India to interact with their American peers, thus helping to build long-term R&D linkages and collaborations.

Enclosed is the announcement flyer for the BASE Program which may be kindly circulated/displayed to all concerned in your institution.

More information about the program is available on our website <https://www.iusstf.org/program/bhaskara-advanced-solar-energy-fellowship>. **The application deadline is 31 January 2020.**

In case you have any queries about the program, please feel free to contact us at energy.fellowship@indousstf.org

We look forward to receiving strong applications from your institution.

Best Regards

Subhashree
